Sri Lanka

Professional Summary

Information Technology undergraduate at the University of Moratuwa with hands-on experience in full-stack web development, REST API development, database systems, secure authentication, and enterprise application development. Experienced in building scalable applications using Spring Boot, Next.js, React, TypeScript, MongoDB, FastAPI, Docker, and modern software engineering practices. Strong interest in Software Engineering, Full Stack Development, Backend Development, and building reliable, user-focused technology solutions.

Education

University of Moratuwa 2024 – Present
BSc (Hons) in Information Technology *Sri Lanka*

- **Focus:** Software Engineering, Full Stack Development, Database Systems, Artificial Intelligence.
- **Relevant Coursework:** Data Structures and Algorithms, Database Systems, Computer Networks, Software Engineering, Statistical Inference, Computer Graphics.
- Developing real-world software systems using modern full-stack technologies and software engineering practices.

Experience

Software Engineering Project – CRMS 2025 – 2026
Cognitx Company / University Software Engineering Project *Sri Lanka*

- Developed a full-stack Change Request Management System (CRMS) for managing software project change requests, requirements, tasks, and approvals.
- Designed enterprise-oriented workflows for Client, Company, and Admin users.
- Implemented role-based access control and JWT-based authentication for secure application access.
- Developed PRD management, Kanban board, task tracking, and project workflow functionality.
- Built RESTful backend services using Spring Boot and a responsive frontend using Next.js and React.
- Integrated MongoDB for persistent data storage and implemented secure API communication between frontend and backend.

Projects

CRMS – Change Request Management System 2025 – 2026

- Developed a full-stack enterprise application for managing change requests, requirements, approvals, and project tasks.
- Implemented role-based access control and JWT authentication for Client, Company, and Admin users.
- Built REST APIs using Spring Boot and the frontend using Next.js, React, and TypeScript.
- Integrated MongoDB for application data management.

MedAssist AI X – AI-Powered Healthcare Operating System 2026 – Present

- Developed a multi-portal healthcare platform for Patient, Doctor, and Admin workflows.
- Implemented secure authentication and authorization using JWT and Spring Security.
- Integrated Redis, WebSocket, AWS S3, Docker, and REST APIs for scalable application workflows.
- Designed modular backend services using Spring Boot and a modern web interface using Next.js.

EduSmart AI – Student Performance Analytics Platform 2026 – Present

- Developed a full-stack platform for student performance analytics and academic risk prediction.

- Integrated FastAPI, Spring Boot, Next.js, MongoDB, and Docker into a modular application architecture.
- Implemented data-driven dashboards and backend APIs for academic analytics workflows.
- Used GitHub Actions to support automated development and deployment workflows.

Certifications

University of Sri Jayewardenepura 2026
Top Performer at CryptX 2.0 – Top 20 Participant

WSO2 2026
Innovate with Ballerina Coding Challenge

Postman 2025
Postman API Fundamentals Student Expert

HackerRank 2025
Go Programming (Intermediate)

HackerRank 2025
Java Programming (Basic)

HackerRank 2025
CodeRally 7.0 – Finalist

HackerRank 2025
JPura Xtreme 3.0 – Finalist

DataCamp
Intermediate SQL

University of Moratuwa
Front-End Web Development

Technical Skills

Programming Languages: Java, JavaScript, TypeScript, Python, SQL, C, C++

Frontend: Next.js, React, TypeScript, HTML5, CSS3, Tailwind CSS

Backend: Spring Boot, Java, FastAPI, Node.js, REST APIs

Database: MongoDB, MongoDB Atlas, MySQL, Redis

Security: JWT, Spring Security, Role-Based Access Control, API Authorization

Cloud / Infrastructure: AWS S3, Docker, Docker Compose

DevOps: GitHub Actions, CI/CD

Real-Time / Integration: WebSocket, REST APIs

AI / ML: Python, Scikit-learn, Pandas, NumPy, Ollama, RAG, OCR

Tools: Git, GitHub, Postman, Figma, VS Code, IntelliJ IDEA

Languages

Tamil: Native **English:** Professional **Sinhala:** Basic
